

Cultivating Leadership: Facilitation Strategies to Foster Collaborative Practices with Adults

Collaboration is said to be an essential skill in the process of continuous improvement. Yet most education leaders have received little training to lead, manage and facilitate collaborative processes. High-functioning collaborative teams are key to increasing student achievement. In order to lead these adult learners, the critical skill of facilitation is a MUST! Join us for a full day of learning as you experience strategies and structures equipping you to lead collaborative processes that positively impact student success.

Participants will:

- Explore strategies to accelerate team development and build collective teacher efficacy
- Experience processes that promote contributions from ALL team members
- Learn strategies to lead teams in designing and using their own accountability structures
- Explore communication practices to set clear expectations and structure the work
- Understand how Emotional Intelligence can be leveraged to positively impact collaborative teams
- Learn a process to address conflicts and conduct difficult conversations

Participants will need to BYOD (Bring Your Own Device) to this interactive training!

Cultivating Leadership: Facilitation Strategies to Foster Collaborative Practices with Adults

ABOUT US

Learning Forward Texas' purpose is to ensure that every educator in the state engages in effective professional learning every day so that every student achieves. We will accomplish our purpose by advocating for high quality professional learning.

We are an educational nonprofit association of learning educators committed to one vision in K–12 education: Excellent teaching and learning every day. To realize that vision Learning Forward Texas pursues its mission to build the capacity of learning leaders to establish and sustain highly effective professional learning.

Learning Forward Texas is the only professional association in Texas devoted exclusively to those who work in educator professional development. We help our members leverage the power of professional learning to affect positive and lasting change.

Tips and Tools for Professional Learning, Day 1

Our current professional culture indicates everyone is a professional learning facilitator. From the classroom teacher to the principal, from the campus coach to the department lead, everyone is a leader of learning.

The purpose of these highly interactive modules is to examine the attributes of results-driven, professional learning, while practicing tips and tools for engaging the adult learner.

Participants will:

- Examine the attributes of standards-based professional learning.
- Study the characteristics of adult learners and adult socialization.
- Investigate the power of norms and how to implement them successfully.
- Learn a framework for designing and delivering powerful professional learning.
- Participate in many processes that model effective professional learning.

(\$5995 (2 trainers, up to 44 participants and travel)

Tips and Tools for Professional Learning, Day 2

An effective facilitator of professional learning represents more than one who can train others on a number of topics or deliver a program with the stated goal of “filling time”. This module is a follow-up to Tips, Tools and Techniques for Professional Learning I. The purpose of this one-day module is to provide additional processes that are research-based, learner-centered, and enable the learning leader to increase their skills and knowledge to promote effective professional learning for all educators.

Participants will:

- Participate in processes that model effective professional learning.
- Learn about window panes and how to use them as a robust learning tool.
- Investigate a powerful resource for facilitating adult learning.
- Experience a variety of purposeful engagement strategies.
- Learn about reflection and how to use it to improve learning.

Tips and Tools for Professional Learning, Day 3

Being a skilled adult learning leader takes many tools in today’s educational setting. If you have completed Tips, Tool, and Techniques 1 and want to learn more, then this session is for you.

The purpose of Tips, Tools, and Techniques for Professional Learning 3 is for participants to become more skilled at leading adults in their learning. This module is a follow-up to Tips, Tools and Techniques for Professional Learning I and II.

Participants will:

- Experience strategies that promote high levels of engagement.
- Reframe and identify strategies for transforming negativity.
- Learn techniques to field questions.
- Study effective methods for using music and giving directions to enhance presentations..
- Learn important considerations for planning and designing professional learning.
- Apply the Nested Process to planning
- Consider a plan of action for future presentations.
